Details at <http://www.google.com/analytics/>

What is it? This is one of the most commonly and widely used free web analytics tool.

What are the common uses? Google Analytics is used track and analyse the web traffic data by generating a report that provides information about visitors, content, traffic sources etc. of a website.

#2 Woopra

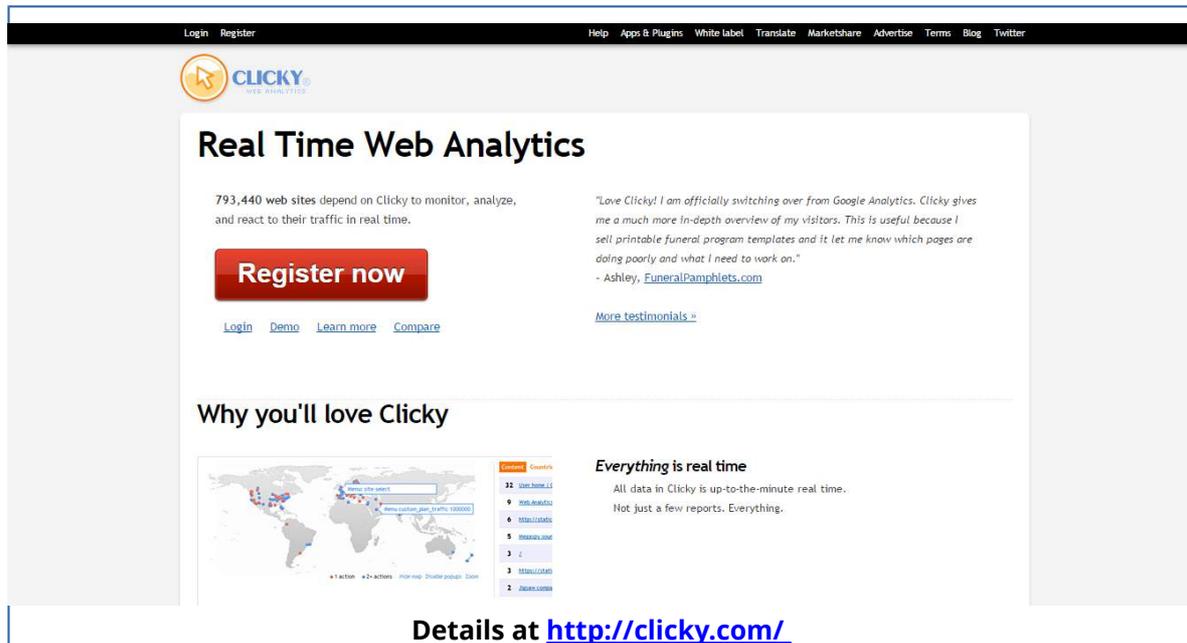

The screenshot displays the Woopra website interface. At the top, the Woopra logo is on the left, and navigation links for 'Platform', 'AppConnect', 'Pricing', 'Docs', 'Blog', and 'Company' are on the right. A 'GET STARTED' button is also visible. The main content area is split into two sections. The left section, titled 'Real-time Customer Activity', features a dark background with a 'Product Tour' button and a green 'Try it for free' button. The right section shows a customer profile for 'Alice M. Prodigy Inc.' with a profile picture and a small bar chart. Below the profile, there are tabs for 'NEW CUSTOMER', 'CPC', and 'SUPPORT'. The 'Profile Info' section lists: Name Alice M., Email alice@prodigyinc.com, Company Prodigy Inc., Role Marketing, Budget \$1,000, Gender Female, and Trial Yes. A circular activity log on the right shows: 'Submitted a ticket with project setup', 'Read blog post 10 Boost Conversions', 'Started a chat with support', and 'Viewed page on via Google (d&n support)'. A 'Yesterday' section shows 'Received email: Welcome to D&N'. At the bottom, a link says 'Details at <https://www.woopra.com/>'.

What is it? A real-time website analysis tool, Woopra is a platform which is used primarily by sales and marketing companies to provide aggregated customers analytics report.

What are the common uses? This tool offers a live chat feature that enables the user to interact with the customers in real-time. Besides this, the WP plugin allows the user to keep a track of blog posts, searches and comments.

#3 Clicky

793,440 web sites depend on Clicky to monitor, analyze, and react to their traffic in real time.

[Register now](#)

[Login](#) [Demo](#) [Learn more](#) [Compare](#)

Real Time Web Analytics

793,440 web sites depend on Clicky to monitor, analyze, and react to their traffic in real time.

"Love Clicky! I am officially switching over from Google Analytics. Clicky gives me a much more in-depth overview of my visitors. This is useful because I sell printable funeral program templates and it let me know which pages are doing poorly and what I need to work on."
- Ashley, [FuneralPamphlets.com](#)

[More testimonials »](#)

Why you'll love Clicky

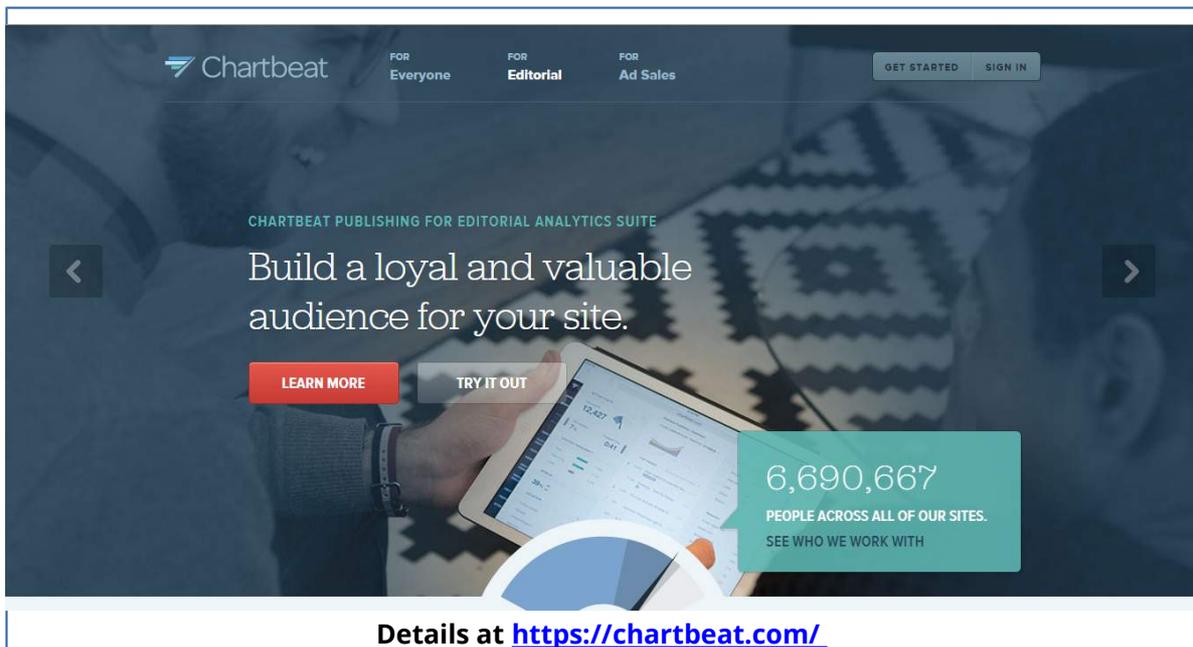

Everything is real time
All data in Clicky is up-to-the-minute real time.
Not just a few reports. Everything.

Details at <http://clicky.com/>

#15 GoSquared

The image shows a screenshot of the GoSquared website homepage. At the top, there is a navigation bar with the GoSquared logo on the left and links for Software, Stories, Resources, Blog, About, and Pricing in the center. On the right side of the navigation bar, there are links for Sign In and a blue button for Free trial. The main content area features a large heading "Easy to use web analytics." followed by the subtext "Real-time analytics for everyone. Join 50,000 data-driven teams today." Below this text are two buttons: "Try the live demo" and "Start free trial". At the bottom of the main content area, there is a screenshot of the GoSquared dashboard on a desktop monitor and a smartphone. The dashboard shows a traffic count of 1,116 and a timeline graph. Below the screenshot, there is a text box with the text "Details at <https://www.gosquared.com/>".

What is it? GoSquared is an essential Web Analytics tool for all the e-commerce websites.

What are the common uses? GoSquared provides notifications about social trends, traffic spikes that helps to measure visitor engagement.

#16 FoxMetrics

The screenshot shows the FoxMetrics website homepage. At the top left is the FoxMetrics logo. To the right are links for 'Sign In' and 'Register New Account'. Below these are navigation links: 'Home', 'Pricing', 'Blog', and 'Support'. The main heading is 'Customer Analytics and Targeting'. Below this is a sub-heading: 'We track the interactions of your customers with your web or mobile applications in real-time, and provide actionable metrics that will help increase your conversion.' There are three buttons: a green 'GET STARTED NOW' button, a phone icon with '+1 (877) 850-0130', and an email icon with 'support.foxmetrics.com'. Below this is a section titled 'Explore our suite of tools' with a cursor icon. It contains six categories: 'CONTENT', 'PEOPLE', 'ECOMMERCE', 'SUBSCRIPTION', 'MARKETING', and 'TRIGGERS', each with a corresponding icon.

Details at <http://foxmetrics.com/>

What is it? FoxMetrics entails 4 key features viz. Funnels, Profiles, Segments and Triggers with reference to web analysis.

What are the common uses? It allows you to track events like newsletter views, software installations etc. in an inexpensive manner, thus enabling you to measure and improve the conversion rates.

#17 Open Web Analytics

The screenshot shows the Open Web Analytics website homepage. At the top, there is a navigation menu with links for 'About OWA', 'Download', 'Help & Support', 'Screenshots', 'Comparison', and 'Thanks For Donating'. A search bar is located on the right side of the menu. Below the navigation menu is the Open Web Analytics logo, which consists of an orange stylized mountain range with a white 'O' shape. The main heading reads 'Web Analytics. Open Source.' Below this heading is a preview of the 'Analytics Dashboard' interface, which includes a line graph for 'User Metrics', a table for 'Top Content', and a pie chart for 'Visitor Types'. To the right of the dashboard preview, there is a section titled 'Easy, Open, Web Analytics.' with a brief description of the software and a 'Download OWA!' button. At the bottom of the page, there is a link to 'Details at <http://www.openwebanalytics.com/>'.

What is it? Open Web Analytics is a free and open source that bears almost the same features as that of Google Analytics.

What are the common uses? This Web Analytics tool can be used to track more than one website. However, the data is not shared with third parties.
